Background Information

GLENS FALLS CITY SD - 630300010000

Summary and Background Information

On March 11, 2021, the President signed into law the American Rescue Plan Act of 2021 (ARP). ARP makes available \$122.8 billion nationally in a third round of Elementary and Secondary School Emergency Relief (ESSER) funds. New York State has been allocated nearly \$9 billion under the ARP Act's Elementary and Secondary School Emergency Relief (ESSER) Fund.

The federal ARP statute requires that States reserve ARP ESSER funds for three State-level reservations for evidence-based activities and interventions that respond to students' social, emotional, mental health, and academic needs and address the disproportionate impact of COVID-19 on students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children and youth in foster care, and migratory students.

Not less than 5 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, activities to address the academic impact of lost instructional time by supporting the implementation of evidence-based interventions.

Not less than 1 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, the implementation of evidence-based summer enrichment programs.

Not less than 1 percent of the State's grant must be reserved to carry out, directly or through subgrants or contracts, the implementation of evidence-based comprehensive after-school programs.

The 2021-2022 enacted New York State budget fully allocated the required SEA reserves as subgrants to 398 LEAs and NYSED has made allocations to two additional LEAs. Specific LEA allocations are detailed in Columns D, E, and F in the ARP ESSER Allocations Chart (see also in the Document Library). Please note that these funds are in addition to the *90% LEA ARP-ESSER ALLOCATION* listed in Column C of that workbook and must be budgeted for separately.

As indicated in NYSED's approved ARP ESSER State Plan, NYSED has included within this application a list of evidence-based interventions related to each state reserve. LEAs will be required to utilize state reserve funds to implement evidence-based interventions either chosen from the NYSED-selected list or from another reputable source (such as, but not limited to, the What Works Clearinghouse).

RESOURCES RELATED TO EVIDENCE-BASED REQUIREMENTS.

LEAs must select and implement evidence-based activities and interventions either chosen from the NYSED-provided list (embedded within each section of the application) or from another reputable source. Selected interventions must fall into one of the four tiers of evidence defined in the Every Student Succeeds Act (ESSA). Specifically, evidence tiers are defined as:

Tier 1 - Strong Evidence: Supported by strong evidence from at least one well designed, well implemented experimental study (randomized-control groups). Studies show that this strategy improves a relevant student outcome (e.g. reading scores, attendance rates). In these studies, students have been randomly assigned to treatment groups or control groups, so that researchers can speak with confidence that those who participate in the intervention strategy outperform those who do not. These studies meet the What Works Clearinghouse evidence standards without reservations. The studies use large, multi-site samples.

Tier 2 - Moderate Evidence: Supported by at least one well-designed and well-implemented quasi-experimental study (matched groups, interrupted time series, et al.) Studies have found that the strategy improves a relevant student outcome (e.g. reading scores, attendance rates). Students in these studies have not been randomly assigned, but researchers have used statistical matching methods that allow them to speak with confidence that the strategy results in an improved outcome. These studies meet the What Works Clearinghouse evidence standards with reservations. The studies use large, multi-site samples. No

ARP-ESSER Application: State Reserves - ARP State Reserves

Introduction/Instructions - Background Information

Page Last Modified: 11/09/2021

other studies show that this strategy negatively impacts an outcome.

Tier 3 - Promising Evidence: Supported by at least one well designed, well implemented correlational study with statistical controls for selection bias is evidence that this strategy improves a student outcome (reading scores, attendance rates), but that research may consist of correlational studies -- studies can show a relationship between the strategy and outcome but cannot show that the improved outcome was the result of the strategy. The studies supporting Tier 3 strategies do not have to be based on large, multi-site samples. A strategy that would otherwise be considered Tier 1 or Tier 2, but it does not meet sample size requirements, is considered Tier 3. No other studies show that this strategy negatively impacts an outcome.

Tier 4 - Demonstrates a Rationale: High-quality research findings or positive evaluation suggests that this will likely improve student outcomes or other relevant outcomes; and there are ongoing efforts to examine the effects of such activity, strategy, or intervention. Based on existing research, the intervention cannot yet be defined as a Tier 1, Tier 2 or Tier 3. However, there is good reason to believe — based on existing research and data — that the intervention could improve relevant student outcomes.

Further information may be found in the Federal Guidance on Evidence-Based Interventions. There are a number of resources available that identify research supports specific interventions. Districts and schools are encouraged to review the various clearinghouses to find programs, strategies, and interventions that address the needs identified during the needs assessment process. Finally, additional technical assistance materials to support LEA planning and implementation of strategies and interventions are available on the Department's ARP ESSER webpage and in the Document Library.

Project Period

March 13, 2020 to September 30, 2024 to obligate funds. Funds must be fully liquidated and an FS-10F Final Expenditure Report submitted by October 31, 2024.

Project Number

The project number stems for the three state-reserve programs are:

Fund Code	Project
5884-21-XXXX	ARP-ESSER 5% State-Level Reserve - Addressing the Impact of Lost Instructional Time
5883-21-XXXX	ARP-ESSER 1% State-Level Reserve - Comprehensive After School
5882-21-XXXX	ARP-ESSER 1% State-Level Reserve - Summer Learning and Enrichment

This number should be used on the appropriate FS-10 budget form.

Submission Deadline

Completed applications are due by **November 30, 2021** (with extensions by request) and will be reviewed on a rolling basis.

If an eligible school district does not intent to apply for one or more of its ARP ESSER State Reserve allocations, please advise NYSED by emailing CARESAct@nysed.gov prior to **November 5, 2021**.

Please note that applications must be submitted and fully approved by no later than March 23, 2022. LEAs that have not been issued a Grant Award Notice by that time will be at risk of having their ARP-ESSER State Reserve allocation returned to the United States Department of Education.

ARP-ESSER State Reserve: Consultation

- 1. An LEA must engage in meaningful consultation with stakeholders and give the public an opportunity to provide input in the development of its plan. Specifically, an LEA must engage in meaningful consultation with students; families; school and district administrators (including special education administrators); teachers; principals; school leaders; other educators; school staff; and their unions. Additionally, an LEA must engage in meaningful consultation with each of the following, to the extent present in or served by the LEA: Tribes; civil rights organizations (including disability rights organizations); and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, students involved with the juvenile justice system, and other underserved students.**

In the space provided below, please describe how the LEA has meaningfully engaged a diverse and representative set of stakeholders to receive feedback in developing its plans to address the impacts of lost instructional time, provide summer learning and enrichment, and support comprehensive after school activities using State-Level Reserve Funds.

Glens Falls City School District has engaged school stakeholders and community members throughout the development of the COVID-19 Reopening Plan, including building and district administrators, teachers, support staff members, nurses, buildings and grounds staff, students, parents, Board of Education members, union representatives, and the Warren County Department of Health through surveys, meetings, discussion, and opportunities to submit feedback/ask questions. Specifically, the district's return-to-school surveys garnered quantifiable data and open-ended feedback from more than 1,500 parent/guardian responses, nearly 450 student responses, and more than 200 faculty/staff responses. In addition, GFSD Our school community's sentiments are reflected in our plan, and many of their ideas are incorporated into it. This feedback has served as the basis for our initial CARES, CRSSA, ESSER, and ARP applications.

Glens Falls City School District will continue to engage stakeholders throughout implementation of our plan by providing updates at Board of Education meetings, Curriculum meetings, and Community Forums. In addition, Glens Falls City School District will promote and main an email link on the Business Office page of our District website specific to the ARP application. This link will be used to collect ongoing feedback and suggestions regarding use of ARP funds over the duration of the grant from stakeholders. <https://www.gfsd.org/departments-services/business-office/>

- 2. In the space provided below, please provide the URL for the website(s) where the LEA Plan for using State-Level Reserve Funds is/will be publicly posted. For an LEA that does not have a website, the LEA may identify an online platform (e.g. social media group or post, file sharing service, email listserv) that allows plans to be directly communicated to students, parents or legal guardians, school staff, and other stakeholders. As appropriate, the LEA should provide details about how the plan will be made available to people who request it.**

Once our LEA's ARP-ESSER State Reserve application receives programmatic approval, it will be downloaded along with the budget forms and posted at the following URL: <https://www.gfsd.org/departments-services/business-office/>

- 3. In the space provided below, please describe how the LEA will support ongoing engagement with parents and families, including engagement related to identified student needs, areas of student gains, and available assistance to families that will support student success.**

Glens Falls City School District will support ongoing engagement with parents and families, including engagement related to identified student needs, areas of student gains, and available assistance to families by providing updates at Board of Education meetings, Curriculum meetings, and Community Forums. These open meeting settings will be used to provide the community and stakeholder groups with updates regarding student progress as it relates to learning loss, comprehensive enrichment programs, and summer learning. Updates in these settings will also be used to show how Social Emotional Learning supports are being utilized to support the mental health of all students including those with identified student needs.

ARP-ESSER Application: State Reserves - ARP State Reserves**ARP-ESSER State Reserves - ARP-ESSER State Reserves: Comprehensive Needs Assessment**

Page Last Modified: 12/15/2021

ARP-ESSER State Reserve: Comprehensive Needs Assessment

- 1. In the space provided below, please describe how the LEA will determine the social, emotional, mental health, and academic needs of students, particularly those students disproportionately impacted by the COVID-19 pandemic, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children in foster care, and migratory students.**

Glens Falls City School District conducts a Comprehensive Needs Assessment on an annual basis. This needs assessments consists of review of NYS Regents data, NYS 3-8 ELA/Math assessment results, iReady Diagnostic results, classroom tests/quizzes, formative and summative assessments results. Administrators meet with teacher departments/grade levels, social workers, psychologists, and school counselors to discuss students SEL and acadmic needs.

Glens Falls City School District will partner with the Warren County Council For Prevention to conduct a survey to help us determine the social, emotional, and mental health needs of students in the district. This survey will be administered within the school day so that low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children in foster care, and migratory students all have school supports in place to complete the survey.

5% State-Level Reserve - Addressing the Impact of Lost Instructional Time: Program Design

- The interventions implemented through the 5% State-Level Reserve to address the impacts of lost instructional time must be evidence-based and may include innovative approaches to providing instruction to accelerate learning. In the space provided below, please describe how the LEA selected evidence-based interventions that will address identified student needs. Include details about how the planned use of state reserve funds for addressing the impacts of lost instructional time will be coordinated with and aligned to other initiatives, including other state reserve funds, interventions detailed in the LEA's ARP-ESSER Plan: Part 2, or other LEA initiatives, including those supported by CARES, CRRSA, Title I Part A, IDEA or other fund sources.**

Glens Falls City School District selected evidence-based interventions to address identified student needs based on our Comprehensive Needs Assessment as well as feedback gathered through community members, parents, students, teachers, support staff members, nurses, and district administrators.

Glens Falls City School District intends to coordinate our response to the impacts of lost instructional time with our Title I Part A funds by providing additional AIS support for our students in Title I buildings/schools and using ARP funds for our non-Title I schools within the district. In addition, Glens Falls City School District will provide High Dosage Tutoring to students who need additional instruction to accelerate learning outside the school day. Teacher Assistants will be utilized to provide smaller group instruction within the school day when students are not available after school. Our district has identified learning gaps with phonemic awareness and phonics. A small portion of funds will be used to purchase materials to address these needs.

- In the chart below, please provide additional information about the planned evidence-based interventions that have been selected to address the impacts of lost instructional time. For each row, please select a planned intervention from the drop-down menu or select "Other Evidence-Based Intervention" as needed. For each planned intervention, indicate the amount of ARP State-Reserve funding that will be invested, the grade levels to be served, targeted student groups to be served, and a detailed description of the specific activities that will be implemented. Please add rows as necessary to reflect the district's entire plan for the use of State-Reserve funds to address the impact of lost instructional time.**

Glens Falls City School District will monitor and evaluate the effectiveness of our strategies to address the impact loss of instructional time as a result of COVID through benchmark testing with the i-Ready diagnostic assessment three times per year, progress monitoring, and review of course grades. In addition, administrators will review SEL and mental health needs with social workers, psychologists, school counselors on an ongoing basis. NYSED approved changes to the program plan will be communicated to stakeholders on the Business Office webpage of the Glens Falls City School District website - <https://www.gfsd.org/departments-services/business-office/> used to communicate with the community regarding ARP funds.

ARP-ESSER State Reserves - Comprehensive After School

Page Last Modified: 02/08/2022

1% State-Level Reserve - Comprehensive After School: Program Design

High-quality afterschool programs should have the goal of providing students with important opportunities for academic support and access to enrichment opportunities that help develop social, emotional, and leadership skills. These benefits are particularly important to students from low-income backgrounds, students who are struggling, and students at risk for later academic disengagement. High-quality afterschool programs have demonstrated positive effects on student math and language arts achievement, and programs strongly rooted in the school context can also have a positive impact on school related student outcomes, including greater self-confidence, increased civic engagement, better school attendance, improved high school graduation, and decreased delinquency.

- The interventions implemented through the 1% State-Level Reserve for comprehensive after school programming must be evidence-based and may include innovative approaches to providing instruction to accelerate learning. In the space provided below, please describe how the LEA selected evidence-based interventions that will address identified student needs. Include details about how the planned use of state reserve funds for comprehensive after school programming will be coordinated with and aligned to other initiatives, including other state reserve funds, interventions detailed in the LEA's ARP-ESSER Plan: Part 2, or other LEA initiatives, including those supported by CARES, CRRSA, Title I Part A, IDEA or other fund sources.**

Glens Falls City School District selected evidenced-based interventions for our Comprehensive After School Program based on our annual Needs Assessment. This needs assessments consists of review of NYS Regents data, NYS 3-8 ELA/Math assessment results, iReady Diagnostic results, classroom tests/quizzes, formative and summative assessments results. Administrators meet with teacher departments/grade levels, social workers, psychologists, and school counselors to discuss students SEL and acadmic needs.

Glens Falls City School District will utilize Comprehensive After School programs as a strategy for student engagement, academic support, and as an opportunity to help develop social and emotional skills with students. As a district with nearly 50% poverty, we recognize the importance of providing these programs to all families within the school district to have a postive impact on school related student outcomes, including self-confidence, increased civic engagement, better, school attendance, and improved graduation rates.

Glens Falls City School District has designed our Comprehensive After School programs funded with our APR State Reserves allocation to be coordinated and aligned with other funding sources. We intend to use a portion of our Title funds and district funds to support our comprehensive after school programs. All of our after school programs regardless of their funding source are designed to strengthen the school/home connection, encourage student engagement, and provide students with extended learning oportunities outside the traditional school day.

- In the chart below, please provide additional information about the planned evidence-interventions that have been selected to address the impacts of lost instructional time. For each row, please select a planned intervention from the drop-down menu or select "Other Evidence-Based Intervention" as needed. For each planned intervention, indicate the amount of ARP State-Reserve funding that will be invested, the grade levels to be served, targeted student groups to be served, and a detailed description of the specific activities that will be implemented. Please add rows as necessary to reflect the district's entire plan for the use of State-Reserve funds to address the impact of lost instructional time.**

1% State-Level Reserve - Summer Learning and Enrichment: Program Design

Summer learning programs can offer another opportunity to accelerate learning, especially for those students most impacted by disruptions to learning during the school year. Schools and districts should design programs that work best in the local context and reflect the characteristics that evidence suggests lead to successful summer programs. These characteristics include: programs are voluntary, full-day lasting five to six weeks, include three hours of language arts and mathematics taught by a certified teacher each day, and include enrichment activities and experiences. Research points to the potentially positive benefits of strong summer programs. A longitudinal study of summer programs showed students who participated in the summer programs that were reviewed received some benefits in mathematics; however, students with high rates of attendance who attended programs for consecutive summers experienced the greatest learning gains. The amount and quality of instruction influenced the academic benefit, with the highest benefits to students attending programs with high-quality instruction provided by a certified teacher and high academic time on task.
